FIESTA 1001-N-C

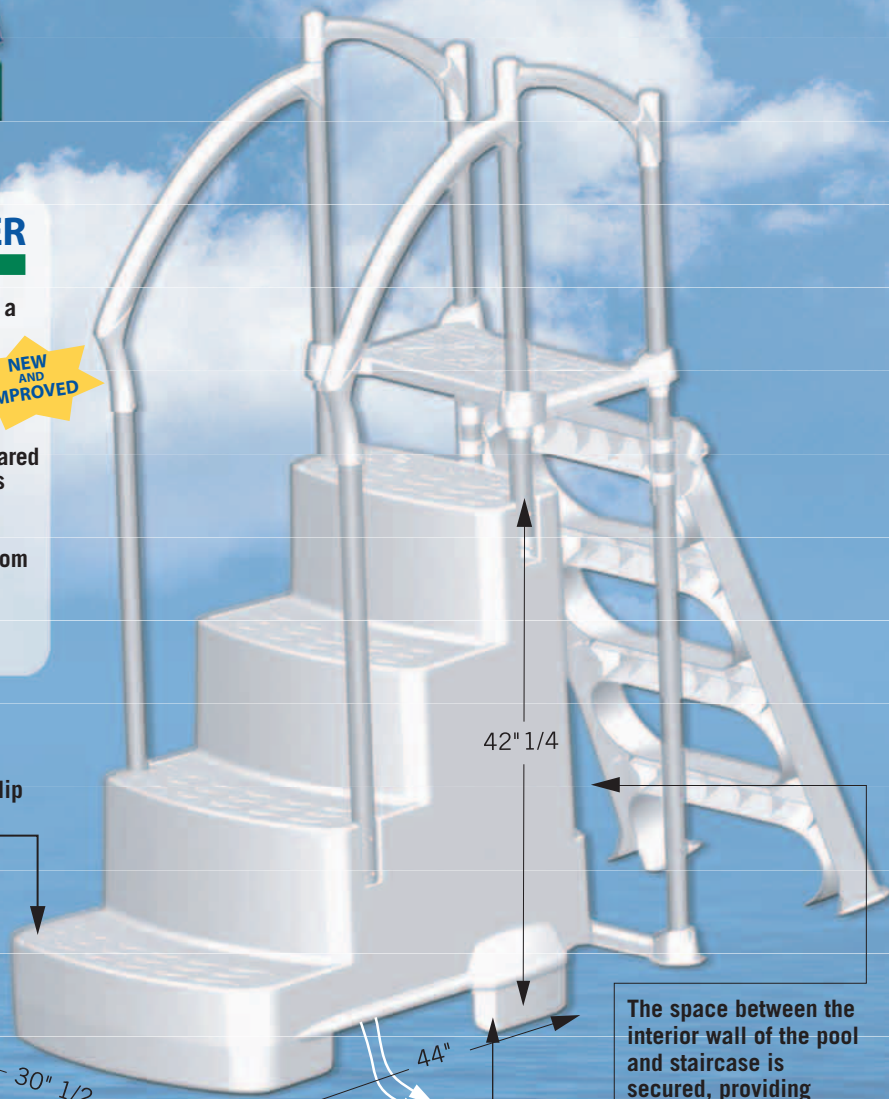

Best value drop in step

6002 CLASSIC LADDER

The New Classic ladder is a sturdier ladder with:

- A wider footprint; from 21" to 24".
- 5" Deep treads compared to 3" on the previous Classic ladder.
- Wider tread surface from 14" to 20" long.

Textured anti-slip surface.

42" 1/4

30" 1/2

44"

The space between the interior wall of the pool and staircase is secured, providing additional protection for children.

STEP CUPS

THE ULTIMATE IN LINER PROTECTION

Revolutionary addition of Step cups to protect your liner!

Step cups option maximizes protection of your liner and gives complete water flow thru to minimize any potential algae growth. They secure the product at the bottom of the pool. Do not need sandbags with a deck application. Patent pending

Space under stairs for better water circulation.

Added support at the back for a sturdier step. Easy installation for flat-bottom pools. Offers great stability.

This cut-away view shows the inside of the step and ballast installation.

You can install one sandbag for 60 pounds of ballast in the bottom step.

The industry's only patented stackable & front loading ballast system for drop in pool steps (U.S. Patent #6,966,405)
