

AQUARIUS DECK 5000

Contents of Aquarius box SKU # 5000

Sand

(not included)

⚠ WARNING

- ▶ Install the step on a flat surface.
- ▶ Do not jump or dive from the step.
- ▶ Remove the step from water when temperatures drop below freezing.
- ▶ In winter, the step should be stored in an area protected from snow.
- ▶ Never lift the step by its handrails.
- ▶ Use BATTERY operated tools to avoid electric shock near water.
- ▶ Ensure no corrosive materials are added to the step or hardware kit.
- ▶ The step must be installed per manufacturer's instructions.
- ▶ File off all stripped or sharp edges before assembly to avoid injuries and liner damage.
- ▶ The manufacturer is not responsible for damages or injuries caused by improper installation or use of product.
- ▶ To ease the installation of handrails and bolts, use a screwdriver to line up the holes.

Required tools (not included)

A

- 1) Insert the two gussets in the slots and slide them toward the corners.
- 2) Assemble the two main modules with the six screws, nuts and washers provided.
- 3) Snap the door between the top and bottom module within the slots provided.

MANUFACTURER WARRANTY

1 year on pool step.
1 year on hardware.

AQUARIUS DECK 5000

B

- 1) Snap the three post ends into the step, making sure that the cylindrical part is vertical and that the ends are snapped properly in their respective housings.
- 2) Snap the filler post end into the step as shown.
- 3) Snap the two feet to the bottom of the step.

D

- 1) For installs where the deck support is located more than 52" (132 cm) from the bottom of the step, you can add 2 15 lbs (7 kg) sand bags on either side of the third step, as shown.
- 2) Install the small post cover on the handrail.

E

- 1) Slowly submerge the step into the pool. Make sure you do not damage the pool liner in the process.
- 2) Angle the whole step so that it is entirely under water. Purge all the air from under the steps.

C

- 1) Insert the two posts into the post ends and secure them in place with the screws provided (as shown in step F).
- 2) Insert the deck support over the rear post.
- 3) Insert the handrail on the two posts and secure in place.
- 4) Fasten the access panel with the screws provided.

F

- 1) Once the step has been entirely submerged, put it in place, with the deck supports resting on the deck.
- 2) Once the step is in the pool, measure as illustrated.
- 3) Insert the short post into the post end and screw together with the screw provided.
- 4) Cut the short post based on the measurement taken in step #2. BE SURE TO CUT 3/4" SHORTER THAN THE MEASUREMENT TO ALLOW INSTALLATION OF THE POST COVER.

MANUFACTURER WARRANTY

**1 year on pool step.
1 year on hardware.**

AQUARIUS DECK 5000

G

1) Insert the short post into the post end at the top of the step.

2) Slide the second deck support onto the short post.

3) Affix the deck supports to the deck with the screws supplied.

4) Install the small post cover on the short post.

H

1) Pull the deck supports (already fixed to the deck) upwards to create a spring effect on the step.

2) Fasten the supports to the two rear posts while pushing the entire step downwards.

MANUFACTURER WARRANTY

**1 year on pool step.
1 year on hardware.**
